

2018 National Landcare Conference

Corangamite sponsorship application

Brisbane Convention & Exhibition Centre
10 – 12 October

The Corangamite CMA, with support from Victorian Landcare Program are pleased to offer subsidies for tickets to Landcare volunteers from Corangamite, to attend the National Landcare Conference.

This opportunity is open to all Landcare members and volunteers who can demonstrate their dedicated involvement in natural resource management activities in the region over the past two years. Sponsorship selection will also be outcomes based, with applications judged by the Corangamite CMA Regional Landcare and Volunteer Team on the explanation of these planned measures: number of shared learning's (community individuals/groups), number of media events (including social media) and number or extent of positive outcomes from attendance.

Each attendee receiving a subsidy will be required to submit a short written report to Corangamite CMA within four weeks of attendance, detailing their experience of the conference including lessons learnt, outcomes and recommendations that could be implemented within their community.

Subsidies can be used to contribute towards **'Early' Registration (by 31 July 2018) Community Two Day Registration (\$300/guest)** expenses and will be paid directly to you prior to your conference attendance. Unfortunately we are unable to cover additional costs such as a field trip and the awards dinner as these are optional extras.

Please note that;

- ***Community Registration is for delegates who are volunteers and are not attending as part of their salaried employment. This category is also open to part-time employees.***
- ***All arrangements for conference registration, accommodation and travel are the responsibility of individual.***

Sponsorship funds are limited and applicants will be assessed on the information provided on the following form.

There are no restrictions on the number of applicants from any one group, however as we are keen to support as many groups as possible this may be taken into account during assessment.
