

Project Name	Linear Reserves Weed Control
Project Type	Environmental Works
Program/Theme	Biodiversity
Project Description	<p>Continue weed control along linear reserves to protect critically endangered GEW and NTG of the Victorian Volcanic Plains on roadsides, rail reserves and cemeteries.</p> <p>Priority will be given to reserves that are high or medium quality and have been recently burnt.</p> <p>Weed management actions will be informed by threatened species and communities distribution data, ecological information and cultural knowledge. Data on the conservation value of linear reserves is stored on the Planning Portal for planning purposes (Victorian Volcanic Plains Linear Reserves (cerdi.edu.au)).</p> <p>Weed control is contracted out to suppliers with specialist knowledge and experience of working in native grasslands. Method used is selective herbicide spot spraying targeting high threat weeds, such as Phalaris and other pasture grasses.</p>
Proponent	Corangamite Catchment Management Authority
Landscape System	Basalt Plains
Priority Direction(s)	BAS1, BAS4, BAS20
Traditional Owner Outcome(s)	<p>WTOAC2 - By 2030, the current extent of volcanic grass lands and woodlands is increased by 5%.</p> <p>WTOAC6 - By 2029, native vegetation extent remains or increases and cultural places are protected</p>
Timeframe	2024-2028
Partner(s)	Department of Energy, Environment and Climate Action
Project contact	Jess.lill@ccma.vic.gov.au
Amount (\$)	\$580,000
Map	VVP bioregion with CCMA boundaries
Other Info
